

## Gear Driven Transfer Case to R150F Transmission

**\$695.45**

### Product Images

### Short Description

Toyota Hilux 4WD, 4Runner or Surf R150F / R151F gearbox to gear-driven transfer case adaptor

This adaptor kit will couple the Toyota 4WD gear-driven transfer case to be used with a R150F / R151F 5 speed replacing the original chain-driven transfer case.

## Description

---

The R150F/R151F is the stronger manual transmission Hilux however this transmission is only ever fitted with the weaker chain driven transfer case. This kit is designed to allow the stronger gear driven transfer case to the R series manual transmission giving the strongest combination for the Hilux.

The kit is made by Advance Adapters in the USA

Kit contains:

- Adaptor plate
- Coupler shaft
- Sleeve
- Seal
- Bolts

**Note:** This kit only suits the gear driven transfer case with a 21 spline input gear
